

# Pro Property Photos

by Wasim Muklashy

## Commercial Rate Card

Architectural and Commercial Property Photography is performed on a day rate basis. Shot by Wasim Muklashy, the highest level of detail and quality will be delivered at this level with significant re-touching and post-processing performed on all images as needed.

The commercial property shoot is typically broken down into five stages:

1. Initial consultation and location scout
2. The photography shoot
3. Contact sheet output
4. Client image selection
5. Post-processing of images

Initial consultations and location scouting prior to the shoot is included.

The photography shoot will typically take between 60-90 minutes per 1000 square feet.

Each 60-90 minutes will typically result in 4-8 different high quality images.

72-96 hours following the shoot, a PDF contact sheet is sent to the client.

The client may choose which images they would like processed & edited for final delivery.
